## HAWKESBURY RIVER COUNTY COUNCIL

### DRAFT PESTICIDES NOTIFICATION PLAN October, 2006

#### AREA OF OPERATION

Local Control Authority Area of Hawkesbury River County Council, covering the Local Government Area's of the Shire of Baulkham Hills and the Cities of Blacktown, Hawkesbury and Penrith.

#### PLAN PERIOD

Start Date: 1 February 2007  
2010

Completion Date: 30 June

**IMPORTANT:** Always read the label before using any pesticide. All chemicals MUST be used strictly in accordance with the registered label for the product. Whilst all care has been taken by the Hawkesbury River County Council in preparation of this plan, neither the Council nor its officers or staff accept any responsibility for any loss or damage which may result from any inaccuracy or omission, or from the use of the information herein. For additional information contact Hawkesbury River County Council – 02 45 87 0230

# PESTICIDE USE NOTIFICATION PLAN

## 1. REASON FOR THIS PLAN.

This pesticide use notification plan has been prepared in accordance with the requirements of the Pesticides Regulation 1995. This plan sets out how Hawkesbury River County Council will notify members of the community of pesticide applications it makes or allows to be made to public places that it owns or controls.

The aim of this plan is to meet the community's general right to know about pesticide applications made to outdoor public places that are owned or controlled by Hawkesbury River County Council. The plan allows members of the community to take action to avoid contact with pesticides, if they wish. Council ensures that pesticides are applied to public places in a safe, responsible manner, minimising harm to the community & the environment.

The plan sets out how Council will notify members of the community of pesticide applications made by Council to public places.

### **The plan describes:**

- what public places are covered by the plan
- who regularly uses these public places and an estimate of the level of use
- how and when Council will provide the community with information about its Pesticide applications in public places (i.e. what notification arrangements will be used)
- how the community can access this plan and get more information about Council's notification arrangements
- how future reviews of the plan will be conducted
- contact details for anyone wishing to discuss this plan with Council.

This plan states that Council only uses pesticides in public places when necessary to eliminate noxious weeds and maintenance of Council premises, Constituent Council's parks and reserves & vacant crown lands.

The pesticide use consists of applying herbicides for noxious weed control & infrequent use of pesticides to protect Councils premises. Frequency of programmed applications range from 2-5 times per year for aquatic weeds, 1-5 times per year for Council reserves roadways and 1-3 times per year for public areas. Insecticides are used to protect Council premises. Other pesticides used include fungicides and rodenticides. Further information on Council's pesticide use can be obtained by calling Hawkesbury River County Council's Office on 0245 870230 or by visiting Council's website [www.hrcc.nsw.gov.au](http://www.hrcc.nsw.gov.au)

## 2. DEFINITION

Under the NSW Pesticides Act 1999, a pesticide is an 'agricultural chemical product' as defined in the Agricultural and Veterinary Chemicals Code Act 1994, namely: 'a substance or mixture of substances that is represented, imported, manufactured, supplied or used as a means of directly or indirectly:

- . destroying, stupefying, repelling, inhibiting the feeding of, or preventing infestation by or attacks of, any pest in relation to a plant, a place or a thing; or
- destroying a plant; or
- modifying the physiology of a plant or pest so as to alter its natural development, productivity, quality or reproductive capacity; or
- . modifying an effect of another agricultural chemical product; or
- attracting a pest for the purpose of destroying it.'

### ***What are some of the different types of pesticides?***

Some families or groups of chemical products which are considered pesticides under current NSW legislation are:

**Bactericides** - These destroy, suppress or prevent the spread of bacteria.

**Baits** - These are ready-prepared products or products which need to be mixed with a food to control a pest.

**Fungicides** - These control, destroy, render ineffective or regulate the effect of a fungus.

**Genetically Modified Organisms** - Agricultural crops can be genetically modified to incorporate resistance to pests and diseases, herbicide tolerance, or to slow the ripening of fruit or alter the timing and duration of flower production.

**Herbicides** - These destroy, suppress or prevent the spread of a weed or other unwanted vegetation.

**Insecticides** - These destroy, suppress, stupefy, inhibit the feeding of, or prevent infestations or attacks by an insect.

**Lures** - These are chemicals that attract a pest to a pesticide for the purpose of its destruction.

**Rodenticides** - These are pesticides used specifically for controlling rodents such as mice and rats.

**Repellents** - These repel rather than destroy a pest. Included in this category are personal insect repellents used to repel biting insects.

### 3. PUBLIC PLACES COVERED BY THIS PLAN.

Hawkesbury River County Council proposes to use or allow the use of pesticides in the following categories of outdoor public places that it controls in the Shire of Baulkham Hills and the Cities of Blacktown, Hawkesbury and Penrith. **IMPORTANT:** Refer to Constituent Council Pesticide Notification Plans for their intended use.

- Reserves (Council controlled or Vacant Crown Lands)
- Public parks, playgrounds & picnic areas
- Sporting fields, ovals & related sporting facilities
- Interior of Council's depot and office
- Exterior of Council buildings / grounds
- road verges and reserves
- Easements accessible to the public
- swimming pools
- caravan & camping grounds
- Hawkesbury/Nepean River, tributaries, Environs, Lagoons and ephemeral wetlands
- Waste management tips
- council depots / nurseries.
- Aquatic weed disposal sites

Hawkesbury River County Council's estimate of the level of community use, regular user groups and types of pesticide use in each of these categories of public places is summarised in the following table.

	<b>Regular User Groups</b>	<b>Pesticide Application Frequency</b>	
<b>Reserves (Council controlled or Vacant Crown Lands)</b>	<ul style="list-style-type: none"> <li>• General recreation users (e.g. joggers, dog walkers).</li> </ul>	Low to medium	<ul style="list-style-type: none"> <li>• Spot herbicides</li> <li>• High/Low Volume selective herbicides</li> <li>• High/Low Volume non selective herbicides</li> </ul>
<b>Public Parks, Playgrounds &amp; Picnic Areas</b>	<ul style="list-style-type: none"> <li>• Children</li> <li>• Families</li> <li>• Social groups</li> </ul>	High	<ul style="list-style-type: none"> <li>• Spot herbicides</li> <li>• High/Low Volume non selective herbicides</li> </ul>
<b>Sporting fields, ovals and related sporting facilities</b>	<ul style="list-style-type: none"> <li>• Sporting clubs and associations</li> <li>• School sports groups</li> <li>• General recreational users(e.g. joggers, dog walkers)</li> </ul>	High	<ul style="list-style-type: none"> <li>• Spot herbicides</li> <li>• High/Low Volume selective herbicides</li> <li>• High/Low Volume non selective herbicides</li> </ul>

<b>Interior of Council's Depot and office</b>	<ul style="list-style-type: none"> <li>• Council staff</li> <li>• General Public</li> </ul>	Low	<ul style="list-style-type: none"> <li>• Spot insecticides</li> <li>• Bait rodenticides</li> </ul>
<b>Exterior of Council's buildings / grounds</b>	<ul style="list-style-type: none"> <li>• Council staff</li> <li>• General Public</li> </ul>	Low	<ul style="list-style-type: none"> <li>• Spot herbicides</li> <li>• High/Low Volume selective herbicides</li> <li>• High/Low Volume non selective herbicides</li> <li>• Spot insecticides</li> <li>• Bait rodenticides</li> </ul>
<b>Road verges and reserves</b>	<ul style="list-style-type: none"> <li>• Local residents or visitors walking or driving on the road</li> </ul>	Low for rural roads Medium to high for urban roads	<ul style="list-style-type: none"> <li>• Spot herbicides</li> <li>• High/Low Volume selective/non-selective herbicides</li> </ul>
<b>Easements accessible to the public (e.g. road, lanes, water, sewer, drains, electricity)</b>	<ul style="list-style-type: none"> <li>• Local residents and people who work in the area</li> </ul>	Low to medium	<ul style="list-style-type: none"> <li>• Spot herbicides</li> <li>• High/Low Volume non-selective herbicides</li> </ul>
<b>Swimming pools</b>	<ul style="list-style-type: none"> <li>• Locals</li> <li>• Visitors</li> <li>• Schools</li> <li>• Swimming clubs</li> </ul>	High in summer	<ul style="list-style-type: none"> <li>• Spot herbicides</li> <li>• High/Low Volume selective herbicides</li> <li>• High/Low Volume non selective herbicides</li> </ul>
<b>Caravan &amp; camping grounds</b>	<ul style="list-style-type: none"> <li>• Visitors</li> <li>• Temporary residents</li> </ul>	High	<ul style="list-style-type: none"> <li>• Spot herbicides</li> <li>• High/Low Volume selective herbicides</li> <li>• High/Low Volume non selective herbicides</li> </ul>
<b>Hawkesbury/Nepean River, tributaries, Environs, Lagoons and ephemeral wetlands</b>	<ul style="list-style-type: none"> <li>• Recreation users</li> <li>• Fishermen</li> <li>• Families</li> <li>• Joggers</li> <li>• Picnickers</li> <li>• Boaters</li> <li>• Water skiers</li> <li>• Swimmers</li> <li>• Other Agency Staff</li> </ul>	High	<ul style="list-style-type: none"> <li>• Spot herbicides</li> <li>• High/Low Volume selective herbicides</li> <li>• High/Low Volume non selective herbicides</li> </ul>
<b>Waste Management Tips</b>	<ul style="list-style-type: none"> <li>• Residents</li> <li>• Council employees</li> </ul>	Low	<ul style="list-style-type: none"> <li>• Spot herbicides</li> <li>• High/Low Volume selective herbicides</li> <li>• High/Low Volume non selective herbicides</li> </ul>
<b>Council Depots / Nurseries</b>	<ul style="list-style-type: none"> <li>• Residents</li> <li>• Council employees</li> </ul>	Medium	<ul style="list-style-type: none"> <li>• Spot herbicides</li> <li>• High/Low Volume selective herbicides</li> <li>• High/Low Volume non selective herbicides</li> </ul>

<b>Aquatic Weed Disposal Sites</b>	<ul style="list-style-type: none"> <li>• Residents</li> <li>• Council employees</li> <li>• Contractors</li> </ul>	Medium	<ul style="list-style-type: none"> <li>• Spot herbicides</li> <li>• High/Low Volume selective herbicides</li> <li>• High/Low Volume non selective herbicides</li> </ul>
------------------------------------	---	--------	---

#### 4. NOTIFICATION ARRANGEMENTS.

This section of the plan describes how and when Council will provide notice of pesticide use in public places. These notification arrangements are based on Council's assessment of:

- the level of usage of public places where herbicides may be used
- the extent to which members of the public who are most likely to be sensitive to herbicides (e.g. young children, sick, pregnant and elderly people) and are likely to use these areas regularly
- the extent to which activities generally undertaken in these areas could lead to some direct contact with herbicides (such as picnic areas where food is consumed; sporting or other recreational activities that result in contact with the ground)
- the type of herbicides used.

Notice of herbicide use will be provided by a combination of:

- signs erected at entrances
- information on Council's website (which will describe programmed, reactive and emergency herbicide use in public places)
- newspaper advertisements distributed in the area
- Letter box drop.

Council will also allow persons and organisations to nominate to have their details placed on a register which would allow them to be notified of certain types of herbicides uses in particular places, as described in this section of the plan.

Instances where Council will not give notice of herbicides application

Council uses some herbicides that are widely available in retail outlets and ordinarily used for domestic purposes (including home gardening). Council does not intend to provide notice for such herbicide applications other than by way of this description in this plan (or general information on Council's website). This will apply to minor control of spot weed/vegetation control using a wand or backpack/hand-held spray bottle and low volume sprayer.

Notice will not be given of the following herbicides uses

- minor spot spraying of isolated noxious weeds on Council controlled land with herbicides
- where herbicide is below a Schedule 6 for spot spraying only.
- emergency control work – signage only will be provided..

## **Outdoor Recreation Areas.**

The notification arrangements described below will apply to the following public place categories controlled by Council within the local government area (LGA):

- public parks and reserves
- playgrounds
- picnic areas
- sporting fields, ovals and related sporting facilities
- the Hawkesbury Nepean River and its tributaries.

In these public places, signs will be provided to the general community near the application area or main entrance at least 48 hours prior to application and remain for at least 48 hours afterwards, or as long as described on the herbicide label, or any other legislative requirement for the following pesticide uses:

- high/low volume selective herbicides
- high/low volume non-selective herbicides

Where any of the above herbicide uses occur adjacent to sensitive places, the occupiers will be provided with 48 hours notice by mail, email or letterbox drop and or which is acceptable to the occupier by prior agreement with Council.

For sporting fields, ovals and related sporting facilities, sporting groups and occupiers of adjacent sensitive places who register interest with Council can also have notice of the above herbicide uses faxed or emailed at least 48 hours prior to application. Information will be available to the general public on Council's website about the forward program for the above applications (updated every three months), and on the following herbicide use in outdoor recreation areas:

- spot herbicides
- high/low volume selective herbicides
- high/low volume non-selective herbicides

## **Outdoor Public Thoroughfares and Certain Easements Accessible to the Public.**

The notification arrangements described below will apply to the following categories of public places controlled by Hawkesbury River County Council

- streets, laneways and pathways
- road shoulders, verges, road reserves and footpaths
- road, sewer and electricity easements accessible to the public
- drains.

In these public places, information on the forward program for high/low volume herbicide will be posted on Council's website every 3 months.

Information on the programmed and reactive spot use of herbicides will also be posted on Council's website every three months. Where programmed spot herbicide applications occur on outdoor public thoroughfares and the above easements, adjacent to sensitive places, and/or for parties who register interest with Council, Notice will not be given where occupiers of properties adjacent to Council public places use herbicides on parts of these public places near their properties.

## **Hawkesbury/Nepean River and Tributaries.**

In accordance with Environment Protection Licence No. 4318 issued under the Protection of the Environment Operations Act, 1997, the following notification process will be adhered to for the application of herbicides on or near water;

At a minimum, the licensee must erect a warning sign adjacent to the waters where the herbicide(s) are applied which:

- a) states at minimum, in legible English, and in any other language as may be considered reasonably necessary

The (name of target weed) in this waterbody have been treated with a registered herbicide (name of active constituent). The public is advised not to use, drink or swim until further notice (or as stipulated on a herbicide label or permit regarding with-holding periods).

For further information contact Hawkesbury River County Council on 0245 87 0230.

EPA Licence No. 4318

- b) is maintained to ensure it remains in place and is visible to the public until the water is safe for use,
- c) is not removed until the water is safe for use.

The licensee must, no later than 7 days and no more than 14 days prior to the application of the herbicide(s), arrange a letter box drop, or publish a notice in a newspaper circulating throughout the locality of the licensee's intention to apply a herbicide to a weed and include the following details:

- a) location of herbicide application
- b) what herbicide(s) is to be applied
- c) when the herbicide(s) is to be applied
- (d) a warning not to use, drink or swim in the water until further notice, or as stipulated on a herbicide label or permit regarding with-holding periods,
- d) that further information can be obtained from the Licensee, and
- e) the licensees name and contact phone number.

## **Council Buildings.**

For pesticide use in facilities that are owned or controlled by Council, signs will be provided near the application area or main entrance at least 48 hours prior to application and remain for at least 48 hours afterwards for the following pesticides uses:

- spot use of insecticides
- bait rodenticides

## **Special Measures for Sensitive Places.**

Clause 11J(1) of the Pesticides Regulation defines a sensitive place to be any:

- school or pre-school
- kindergarten
- childcare centre
- hospital
- community health centre
- nursing home
- a place declared to be a sensitive place by the Environment Protection Authority (EPA) – now a part of the Department of Environment and Conservation (DEC).

Special notification measures for programmed herbicide use in outdoor public places adjacent to sensitive places for each category of public place have already been noted. For non-emergency reactive herbicide use in outdoor public places next to sensitive places, Council will provide concurrent notice shortly before use to the occupier by email, door-knock or letterbox drop, depending upon what is practicable.

If a herbicide must be used to deal with an emergency in an outdoor public place that is adjacent (or within 100 metres) to a sensitive place, Council will organise a door-knock in that sensitive place, preferably at least 30 minutes before.

## **Pesticide Contractors and Lessees of Public Places.**

Where Council uses contractors to apply pesticides on its behalf, Council will ensure that notification is made in accordance with the notification requirements of this plan. Where persons or organisations hold an existing lease on Council land that remains a public place and if they use pesticides in this area, Council will not give notice of pesticide use by these persons or organisations.

In public areas where multiple agencies have responsibility for land management (pesticide application) on their land, and where there is no physically defined boundaries, where Council is undertaking the herbicide application it will follow this Pesticide Notification Plan unless it is operating under contract/or agreement to another authority. This will include incidental applications in areas that are controlled by other authorities.

## **5. WHAT INFORMATION WILL BE PROVIDED**

In accordance with clause 11L(2)(g) of the Pesticides Regulation, notices of pesticide use must include **all** the following information:

- the full product name of the pesticide to be used
- the purpose of the use, clearly setting out what pest or pests are being treated
- the proposed date/s or date range of the pesticide use
- the place where the pesticide is to be used
- contact telephone number and email address of the Council officer who people can contact to discuss the notice
- any warnings regarding re-entry to or use of the place of application specified on the product label or an Australian Pesticides and Veterinary Medicines Authority (APVMA) permit.

Signs will be of a standardised design that will be easily recognisable to the public and

workers. As already noted, Council's website will have a dedicated area that describes its programmed, reactive and, if practicable, emergency herbicide use in public places with a link to this notification plan.

## **6. HOW THE COMMUNITY WILL BE INFORMED OF THIS PLAN**

Council will advise residents of the contents of this plan and its contents by:

- making a copy of the plan available for public viewing free of charge in Council's office at 6 Walker Street, South Windsor during office hours
- placing a copy of the plan on the Council website at [www.hrcc.nsw.gov.au](http://www.hrcc.nsw.gov.au)
- placing notices in local newspapers distributed in the area
- placing a notice in the NSW Government Gazette.

## **7. FUTURE REVIEWS OF THE PLAN**

The notification plan will be reviewed every 3 years. The review will include:

- a report on progress of implementing the plan
- placing the plan on public exhibition, with any proposed changes and calling for public submissions
- in the light of public submissions, making recommendations for alterations (if applicable) to the plan.

## **8. CONTACT DETAILS**

Anyone wishing to contact Council to discuss the notification plan or to obtain details of specific details of pesticide applications in public places should contact:

Manager, Weeds Operations

PO Box 6021 **SOUTH WINDSOR D.C** NSW 2756

Phone 0245 87 0235

Email: [council@hrcc.nsw.gov.au](mailto:council@hrcc.nsw.gov.au)

Or access the website: [www.hrcc.nsw.gov.au](http://www.hrcc.nsw.gov.au)

## **APPENDICES**

- A. Template for pesticide notification.
- B. Notice of Intention
- C. Notice of Intention
- D. Commonly Used Chemicals
- E. Application for Registration of Herbicide-Sensitive Individual / Or Area.

Appendix A

## **Sample pesticide notification notice**

**Product:** Brushoff

**The purpose of the use:** To control the declared noxious weed Blackberry.

**Proposed dates of use:** 1<sup>st</sup> to 9<sup>th</sup> December, 2006.

**The place of use:** Woodlands Reserve, King Road, Wilberforce.

**Contact telephone number:** Manager, Weeds Operations 0245 870235

**Warnings about limitations on the subsequent use of or entry onto the land specified on the approved label or pesticide permit:** Nil

Appendix B:

# Notice of Intended Herbicide Application

To be used when giving residents prior notice

**Notice to residents of:** \_\_\_\_\_

\_\_\_\_\_

**Date or dates of herbicide use:\*** \_\_\_\_\_

\_\_\_\_\_

(\*A range of dates may be used to cover short-term postponements.)

**Full name of herbicide(s) & concentration:** \_\_\_\_\_
